

To Whom It May Concern:

This is to appeal to you as a resident of the Collierville-TN local community to keep K-Love on the air as a listener supported, commercial free radio station. As a mother of a 10-year old daughter, K-Love without commercials coming at you to tell you what you cannot live without, plays a vital role in our daily live. K-Love is unique and the only radio station that offers such refuge and encouragement in a wild variety of more and more child- and family-unfriendly radio stations.

Julie Williams of K-Love said it best „radio is not free, there is a price that comes with submitting yourself daily to commercials“, this is paraphrased. Commercials and all kinds of sexual indications play in your subcontiousness and if you want to keep your mind pure, you have to turn off the radio completely if K-Love gets replaced.

Thanks,

Martina Lewis
